CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE THREE AND SIX MONTHS ENDED 30 JUNE 2021 AND REPORT ON REVIEW

CONTENTS

Report on Review of Condensed Consolidated Interim Financial Statements

To the Shareholders and Supervisory Council of Public Joint Stock Company ALROSA:

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Public Joint Stock Company ALROSA and its subsidiaries (together – the "Group") as at 30 June 2021 and the related condensed consolidated interim statements of profit or loss and other comprehensive income for the three-month and six-month periods then ended, cash flows and changes in equity for the six-month period then ended, and the related explanatory notes. Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting". Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed consolidated interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with International Accounting Standard 34, "Interim Financial Reporting".

1. ACTIVITIES

The core activities of Public Joint Stock Company ALROSA (“the Company”) and its subsidiaries (“the Group”) are exploration and extraction of diamond reserves and marketing and distribution of rough and cut diamonds. The Company was registered on 13 August 1992 in the Republic of Sakha (Yakutia), which is located within the Russian Federation.

The Group operates mining facilities in Mirny, Udachny, Aikhal, Nyurba and Anabar of Republic of Sakha (Yakutia) (located in Eastern Siberia) and the Arkhangelsk Region. Licenses for the Group’s major diamond deposits expire between 2022 and 2048. Management believes the Group will be able to extend the licenses’ terms after they expire.

As at 30 June 2021 and 31 December 2020 the Company’s principal shareholders were: the Russian Federation (33.0 per cent of shares) represented by the Federal Agency for State Property Management and the Republic of Sakha (Yakutia) (25.0 per cent of shares) represented by the Ministry of the property and land relations of Sakha (Yakutia). Therefore the total share of the state is above 50%.

The Company is registered and has its principal operating office at 6, Lenin Street, Mirny, Mirninsky ulus, 678175, Republic of Sakha (Yakutia), Russia.

2. BASIS OF PRESENTATION

The condensed consolidated interim financial statements are prepared in accordance with International Accounting Standard 34 “Interim Financial Reporting” (“IAS 34”). These condensed consolidated interim financial statements should be read together with the consolidated financial statements for the year ended 31 December 2020 prepared in accordance with International Financial Reporting Standards (“IFRS”).

Group companies incorporated in Russia maintain their statutory accounting records and prepare statutory financial reports in accordance with the Federal Law on Accounting and the Regulation on Accounting and the Reporting in the Russian Federation (“RAS”). Their functional currency is the Russian Rouble (“RR”). The Group companies incorporated in other countries maintain their statutory accounting records in accordance with relevant legislation and in the appropriate functional currency. The Group’s condensed consolidated interim financial statements are based on the statutory accounting records, with adjustments and reclassifications for the purpose of fair presentation in accordance with IAS 34.

The preparation of condensed consolidated interim financial statements in conformity with IAS 34 requires Group’s management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. The most significant estimates relate to impairment of PPE, valuation of inventories, investments, expected credit losses, useful life of property, plant and equipment, reserve estimates used to calculate depreciation, asset retirement obligation, pension and other post-retirement benefit costs. Actual results could differ from these estimates.

Beginning with the financial statements for 2020 the Group has changed the presentation of financial income and costs in the Consolidated statement of profit or loss and other comprehensive income. The new presentation better reflects the structure of financial income and costs, in particular foreign exchange gains and losses.

The official US dollar to RR exchange rates as determined by the Central Bank of the Russian Federation were RR 72.3723 and RR 73.8757 per US$ 1 as at 30 June 2021 and 31 December 2020, respectively. The official Euro to RR exchange rates as determined by the Central bank of the Russian Federation were RR 86.2026 and RR 90.6824 per EUR 1 as at 30 June 2021 and 31 December 2020, respectively.

(a) Financial risk management

Currency risk. The Group exports production to European and other countries and attracts a substantial amount of foreign currency denominated borrowings and is, thus, exposed to foreign exchange risk arising from various contracts, primarily with respect to the US dollar and to a lesser extent the Euro.

The Group seeks to identify and manage foreign exchange rate risk in a comprehensive manner, considering an integrated analysis of natural economic hedges, to benefit from the correlation between income and expenses. The Group attracts a significant portion of borrowings for its investing activities in the same currency as the forecasted revenue stream to economically hedge the foreign currency risk exposure. The Group chooses the currency in which to hold cash, such as the Russian rouble, US dollar or other currency for a short-term risk management purposes.

2. BASIS OF PRESENTATION (CONTINUED)

Liquidity risk. Liquidity risk management includes maintaining sufficient cash balances, the availability of funding from an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying businesses, Group management maintains flexibility in funding by ensuring availability under committed credit lines and expected cash flows from operating activities. Management monitors a rolling forecast of the Group's liquidity reserve (comprises undrawn borrowing facility and cash and equivalents) on the basis of expected cash flow. This is carried out at Group level monthly and annually. In addition, the Group's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet any net cash outflows and maintaining debt financing plans.

Capital risk management. The Group's objectives when managing capital is to maintain and further expand the Group's operations, to provide the Group with the possibility to perform an ongoing activity in order to maintain the return on capital for the shareholders and other stakeholders, and also to preserve a certain level of finance resources for the Group's investment activity and to keep an optimal capital structure at a lower the cost.

Under the existing loan agreements, the Group must comply with a number of requirements, including requirements for the level of capital and its ratio to the amount of net debt. The Group has complied with all externally imposed capital and debt requirements throughout 2020 and for the six months ended 30 June 2021.

According to the Group's Financial Policy approved in 2018 (amended in March 2021) the Group assesses the debt burden level on the basis of the Net Debt / EBITDA ratio for the last twelve months.

The Group seeks to minimize the weighted average cost of capital (WACC) through the effective selection of sources of financing (equity and borrowed capital).

Capital management is carried out through the control of the Company Management over the results of the Group's activities based on the following indicators:

- free cash flow,
- net debt to EBITDA,
- share of borrowed capital in total amount of financing of the Company (gearing ratio).

Free cash flow (FCF) – is calculated as cash flow from operating activities less cash outflow for financing capital expenditures (according to the "Purchase of property, plant and equipment" line of Consolidated statement of Cash Flows)

EBITDA is calculated as Net profit or loss of the Group adjusted for income tax, finance gains and losses, share of net profit of associates and joint ventures, foreign exchange gain and losses, depreciation and amortisation, impairment of property plant and equipment, gains or losses from disposal of subsidiaries, fair valuation effects and one-off items. There were no one-off items during the six months ended 30 June 2021 and the six months ended 30 June2020.

Total debt includes short-term and long-term loans and borrowings and other financial liabilities (notes 12 and 13).

Net debt is calculated as **Total Debt** less cash and cash equivalents and bank deposits as of reporting date.

Total capital is calculated as a sum of Total equity as per Consolidated Statement of Financial Position and Total debt.

Management assess the relevance of the above indicators values depending on the current economic situation. After the analysis is completed management would develop an action plan to improve these indicators if necessary.

27. CONTINGENCIES AND COMMITMENTS

(a) Operating environment of the Russian Federation

COVID-19

On 12 March 2020, the World Health Organisation declared the outbreak of COVID-19 a global pandemic. In response to the pandemic, the Russian authorities implemented numerous measures attempting to contain the spreading and impact of COVID-19, such as travel bans and restrictions, quarantines, shelter-in-place orders and limitations on business activity, including closures. These measures have, among other things, severely restricted economic activity in Russia and have negatively impacted, and could continue to negatively impact businesses, market participants, clients of the Group, as well as the Russian and global economy for an unknown period of time.

The restrictions imposed worldwide to combat the new COVID-19 coronavirus infection led to a drop in demand for rough diamonds and diamond jewellery and minimized the trade in rough and cut diamonds on all global markets in April, May and June, their influence continued in July with partial market recovery in August, and renewal of regular demand starting September and till the end of 2020. Regular sales continued during the six months of 2021, which allowed the Group to repay part of the loans raised during the lockdown period (note 12).

Management takes all necessary measures to ensure the sustainability of the Group's operations, to support its customers and employees, to implement ongoing sales and production processes, and to maintain liquidity and solvency.

This operating environment has a significant impact on the Group’s operations and financial position. The Group continues to monitor the situation and implement a set of actions to minimise the impact of potential risks on the Group’s operations and financial position. Future economic downturns or continuing uncertainty of future market conditions could adversely affect diamond demand and prices, and any sustained decline in the market price or consumer demand for rough diamonds would have a material adverse effect on the Group’s business, financial condition, results of operations and perspectives. Management is taking the necessary actions to ensure the sustainability of the Group. However, the future impact of the current economic environment is difficult to predict and management’s current expectations and estimates may differ from actual results.

As at 30 June 2021, the Group's management does not see any indicators or reasons for updating the impairment testing conducted as at 31 December 2020. Based on the assessment done for compliance with terms of credit facilities in foreseeable future, the Group does not expect default or breach under any of its credit facilities.

27. CONTINGENCIES AND COMMITMENTS (CONTINUED)

(b) Taxes

Russian tax legislation which was enacted or substantively enacted at the end of the reporting period is subject to varying interpretations when being applied to the transactions and activities of the Group. Consequently, tax positions taken by management and the formal documentation supporting the tax positions may be challenged by relevant authorities. Russian tax administration is gradually strengthening, including the fact that there is a higher risk of review of tax transactions without a clear business purpose or with tax incompliant counterparties. Fiscal periods remain open to review by the authorities in respect of taxes for three calendar years preceding the year of review. Under certain circumstances reviews may cover earlier periods.

The Russian transfer pricing legislation is generally aligned with the international transfer pricing principles developed by the Organisation for Economic Cooperation and Development (OECD) but has specific characteristics. This legislation provides the possibility for tax authorities to make transfer pricing adjustments and impose additional tax liabilities in respect of controlled transactions (transactions with related parties and some types of transactions with unrelated parties), provided that the transaction price is not arm’s length.

Management of the Group believes that its pricing policy is arm’s length and it has implemented internal controls to be in compliance with the transfer pricing legislation.

Tax liabilities arising from transactions between Group’s companies are determined using actual transaction prices. It is possible, with the evolution of the interpretation of the transfer pricing rules, that such transfer prices could be challenged. The impact of any such challenge cannot be reliably estimated.

As Russian tax legislation does not provide definitive guidance in certain areas, the Group adopts, from time to time, interpretations of such uncertain areas that reduce the overall tax rate of the Group. While management currently estimates that the tax positions and interpretations that it has taken can probably be sustained, there is a possible risk that outflow of resources will be required should such tax positions and interpretations be challenged by the relevant authorities. The impact of any such challenge cannot be reliably estimated; however, it may be significant to the financial position and/or the overall operations of the Group.

The Controlled Foreign Company (CFC) legislation introduced Russian taxation of profits of foreign companies and non-corporate structures (including trusts) controlled by Russian tax residents (controlling parties). The profit of the CFC, with exemption under the Law, is taxed at a rate of 20%.

(c) Legal proceedings

The Group is a party to certain legal proceedings arising in the ordinary course of business. In the opinion of management, there are no current legal proceedings or other claims outstanding, which could have a material adverse effect on the results of operations or financial position of the Group as at 30 June 2021.

(d) Capital commitments

As at 30 June 2021 the Group had contractual commitments for capital expenditures of approximately RR’mln 8,541 (31 December 2020: RR’mln 2,804).

(f) Restoration, rehabilitation and environmental costs

Under its license agreements, the Group is obliged to perform recultivation of certain disturbed lands and tailing pits in the areas of its operating activity. At 30 June 2021 the Group recognised a provision for these future expenses in the amount of RR’mln 14,651 (31 December 2020: RR’mln 14,060), see note 14.

(g) Compliance with covenant

The Group is subject to certain covenants related primarily to its borrowings. Non-compliance with such covenants may result in negative consequences for the Group including growth in the cost of borrowings and declaration of default. The Group was in compliance with covenants at 30 June 2021 and 31 December 2020.

28. RELATED PARTY TRANSACTIONS

Parties are generally considered to be related if parties are under common control, or one party has the ability to control the other party, or can exercise significant influence over the other party in making financial or operational decisions as defined by IAS 24 "Related Party Disclosures". In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form.

Related parties may enter into transactions, which unrelated parties might not, and transactions between related parties may not be effected on the same terms, conditions and amounts as transactions between unrelated parties.

The Russian Federation and the Republic of Sakha (Yakutia)

Federal Agency for State Property Management on behalf of the Russian Federation and the Ministry of the property and land relations of the Republic of Sakha (Yakutia) on behalf of the Republic of Sakha (Yakutia) are the major shareholders of the Company. As at 30 June 2021 58.0 per cent of the Company's issued shares were directly owned by the Governments of the Russian Federation and the Republic of Sakha (Yakutia).

Also as at 30 June 2021 eight per cent of the Company's shares were owned by administrations of 8 districts (ulus) of the Republic of Sakha (Yakutia).

In accordance with the Company Charter, the Supervisory Board is elected in the amount of 15 people. Following the General Meeting of Shareholders on 16 June 2021, the Supervisory Board include 6 representatives of the Russian Federation (including 1 – the Chair of the Management Board), 3 representatives of the Republic of Sakha (Yakutia), 1 representative of the districts of the Republic of Sakha (Yakutia) and 5 independent Directors (1 of them was nominated by the Federal Agency for state property management, exercising the rights of the Russian Federation as a shareholder of the Company, 2 was nominated by the Ministry of property and land relations of the Republic of Sakha (Yakutia), 2 was nominated by foreign minority shareholders).

Governmental economic and social policies affect the Group's financial position, results of operations and cash flows.

Group's tax balances are disclosed in the condensed consolidated interim statement of financial position and in notes 10 and 16. Tax transactions are disclosed in the condensed consolidated interim statement of profit or loss and other comprehensive income, condensed consolidated interim statement of cash flows and in notes 16, 19, 20, 21, 26 and 27.

Parties under control or significant influence of the Government

In the normal course of business the Group enters into transactions with other entities under Governmental control or significant influence. The principal forms of such transactions are diamond sales, fuel and electricity purchases and borrowings. Prices of diamonds sales are set by reference to price lists approved by the Ministry of Finance of the Russian Federation; electricity tariffs in Russia are partially regulated by the Federal Tariffs Service.

The amounts of balances and transactions with related parties under Governmental control or significant influence are detailed below:

28. RELATED PARTY TRANSACTIONS (CONTINUED)

Key management compensation

The Supervisory Council of the Company consists of 15 members, including state representatives of Governments of the Russian Federation and the Republic of Sakha (Yakutia) and the minority shareholders. Compensation for serving as members of the Supervisory Council is not paid to the Chairman and members of the Supervisory Council who have the status of government or municipal public employee - according to Russian legislation, as well as to the members of the Supervisory Council who are also the individual executive body or a member of the collegial executive body.

As at 30 June 2021 the Management Board consisted of 5 members, as at 31 December 2020 – of 6 members. As at 30 June 2021 and 31 December 2020 one of the Management Board member was also a member of the Supervisory Council. Management Board members are entitled to salary, bonuses, voluntary medical insurance and other short-term employee benefits. Salary and bonus compensation paid to members of the Management Board (excluding the CEO - Chairman of the Management Board) is determined by the terms of “Remuneration Policy for the members of the Management Board of PJSC ALROSA” approved by the Company’s Supervisory Council on 27 December 2019. Salary and bonus compensation paid to the CEO - Chairman of the Management Board is determined by the terms of “Remuneration Policy for the the CEO - Chairman of the Management Board of PJSC ALROSA” approved by the Company’s Supervisory Council on 27 December 2019.

According to Russian legislation, the Group makes contributions to the Pension Fund of Russian Federation for all of its employees including key management personnel. Key management personnel also could be eligible for non-state pension after retirement according to the Policy on “Non-state pension provisions of the employees of PJSC ALROSA”.

Key management received benefits for the three and the six months ended 30 June 2021 totalling RR’mln 526 and RR’ mln 653, respectively (the three and the six months ended 30 June 2020: RR’mln 348 and RR’ mln 402, respectively). In 2021 the Group declared dividends RR’mln 3 to key management hold the Company’s shares (RR’mln 1 in 2020).

Share-based payments

The Group approved Long-Term Motivation Program for the Company’s management with share-based payments. The program is set for a period of 3 years and is tied to the indicators of shareholders profitability and applies to members of the Management Board, heads of subsidiaries, units and other employees whose professional activities have key impact on the operating and financial results of the Group. The liability is remeasured at fair value at each reporting date and all changes are recognized immediately in profit or loss statement. As at 30 June 2021 the liability under this Program was estimated on the basis of the fair value of stock options using the Black-Scholes model and recognised in the amount of RR’mln 36 in other long-term liabilities and in the amount of RR’mln 346 in other short-term liabilities (as of December 31, 2020: RR’mln 129 and RR’mln 3,668, respectively), expenses for the six months ended June 2021 in the amount of RR’mln 2,389 (for the six months ended June 2020 in the amount of RR’mln 88) were recognised within general and administrative expenses in the condensed consolidated interim statement of profit or loss and other comprehensive income. In accordance with the terms of the Program, during the second quarter of 2021, the Group made payments to the participants of the first stage.

Associates and Joint Ventures

Significant balances and transactions with associates and joint ventures are summarised as follows:

Current accounts receivable	30 June 2021	31 December 2020
Catoca Mining Company Ltd, dividends and other receivables	4,464	104
Total current accounts receivable	**4,464**	**104**

Significant balances and operations with associates are disclosed in note 4.

Other operations with associates

Transactions with the Group’s pension plan are disclosed in note 17, accounts payable to associates are disclosed in note 15. Social costs incurred by the Group in relation to the parties under control of the Government are presented by charity costs and make up the largest part of them. These expenses are disclosed in note 23.

29. SEGMENT INFORMATION

The Management Board of the Company has been determined as the Group's Chief Operating Decision-Maker (CODM).

The Group's primary activity is the production and sales of diamonds. The internal management reporting system is mainly focused on the analysis of information relating to production and sales of Diamond segment, however information relating to other activities (represented by several subdivisions of the Company and separate legal entities of the Group`s all other business) is also regularly reviewed by the CODM.

The Management Board evaluates performance and makes investment and strategic decisions based upon review of operating activity results (i.e. meeting production targets and monitoring of actual expenditures against budget allocated by production and sales of diamonds and other activities) as it believes that such information is the most relevant in evaluating the results. No specific measure of profit or loss is analysed by the CODM on entity by entity basis.

The following items are analysed on the Group level and are not allocated between segments for the purposes of the analysis:

- finance income;
- finance cost;
- share of net profit of associates;
- income tax expense or benefit;
- non-cash items other than depreciation;
- total assets and liabilities and
- capital expenditure.

The following reportable segments were identified by the Management Board:

- Diamonds segment – extraction and sales of diamonds, production and sale of microgrits and diamonds;
- Transportation – airline business, transportation services and services at transportation terminals, ports and airports;
- Social infrastructure – include residential housing units, sports complexes and cultural facilities, such as cinemas and theatres and other social infrastructure;
- Other activities.

Information regarding the results of the reportable segments is presented below. In 2020, following change of reporting regularly provided to CODM, the Group has changed the format for presentation of segment information. The new format presents data for segment information based on IFRS principles in line with the Group's consolidated financial statements and the data for CODM is also presented for administrative, selling and marketing expenses, other operating income and other operating expenses. For the comparability, prior period segment information was restated according to new principles. Main reclassifications and adjustments that were necessary for Group's financial statements to be presented in accordance with IFRS are connected with cost of sales and include classification of exploration expenses, accrual for pension and other obligations and different treatment of extraction tax.

30. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. The estimated fair values of financial instruments are determined with reference to various market information and other valuation techniques as considered appropriate.

The different levels of fair value hierarchy have been defined as follows:

- Level 1 – Quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to assess at the measurement date. For the Group, Level 1 inputs include debt instruments that are actively traded on the European and Russian domestic markets.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). For the Group, Level 2 inputs include observable market value measures applied to loans and borrowings.
- Level 3 – Unobservable inputs for the asset or liability. These inputs reflect the Company’s own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Total financial liabilities	**98,483**	**72,209**	**-**	**170,692**

The fair values in Level 2 and Level 3 of fair value hierarchy were estimated using the discounted cash flows valuation technique. The fair value of floating rate instruments that are not quoted in an active market was estimated to be equal to their carrying amount. The fair value of unquoted fixed interest rate instruments was estimated based on estimated future cash flows expected to be received discounted at current interest rates for new instruments with similar credit risk and remaining maturity.

There were no transfers between Levels 1, 2 and 3 during the period. There were no reclassifications of available-for-sale investments' losses from other comprehensive income into the profit or loss.
